

IPA Section Montenegro

organizes an international meeting under the slogan

Meet Montenegro to love it even more

1.-5. May 2023

During our stay in Montenegro, we will see wild beauties such as:

- **The National Park “Durmitor”** (Black Lake - walking tour, peaks of Mount Durmitor - by funicular and Viewpoint Ćurevac - ATV vehicles),
- **Canyon Tara** (rafting, zip line and big bridge on Tara),
- and, **The National Park “Biogradska gora”** (Biograd Lake - hiking tour and peaks of Mountain Bjelasice - by funicular).

Durmitor is a mountain and a national park in Montenegro. The highest peak, which is 2,523 m high, is *Bobotov kuk*. The beauty of *Durmitor* is given special charm by; 18 glacial lakes, called the Mountain Eyes, at heights of above 1500 m, the largest and most attractive being the *Black Lake*. Vast forest areas contribute to the magnificence of the landscape that make the *Durmitor* National Park part of the World Cultural and Natural Heritage.

Tara, an impressive river, that is up to 1,3000 m deep, which makes it the deepest canyon in Europe and the second in the world, after the Grand Canyon of the Colorado River in the USA. The *Great Bridge* on *Tara*, one of the 20 most beautiful in the world, chosen by the "Bright side" portal and the British "Times", has been ranked as one of 10 attractions that should be visited. *Tara* and her canyon valley have been included in the world ecological biosphere reserves by the UNESCO program.

Biogradska gora, one of the last three rainforests in Europe, is a specially protected place in Montenegro. This untouched corner of beauty and splendor of nature, other than it's ancient forest, also hides a real gem - *Lake Biograd*, which is located in the central part of the National Park by the same name. Mount *Bjelasica*, one of the most charming mountains in Montenegro, is where the largest Montenegrin ski center is located. The highest peak of *Bjelasica* is *Crna Glava*, which stands at 2,139 meters in height.
